

# Ordinance Compliance Department Annual Report

March 5, 2018

## **Introduction:**

The Bath Charter Township Ordinance Compliance Department has been established since February 2008.

The Mission of the Ordinance Compliance Department continues to be, to treat all equally and fairly while implementing the Township's goal of promoting and protecting public health, safety and the general welfare of others while achieving compliance with the Vision of maintaining healthful surroundings in the agricultural, residential and non-residential areas, with the combined efforts of the entire community.

The Ordinance Compliance Department is still providing many valuable and necessary services for the community relevant to communication, education, being a mediator, solving problems, researching and achieving compliance with the Township Ordinances as well as working with other governmental agencies addressing public concerns.

## **Regarding some numbers:**

The numbers are slightly lower this past year with 186 Enforcements filed compared to the 231 filed in 2016.

Some of the larger categories of those that were filed in 2017 were 27 for Junk, 35 for Noxious Weeds, 10 for Public Safety, 11 for No Building Permit and 9 for Dangerous Buildings. *(Note: A detailed Enforcement Report by Category is attached for your review as well as eight pictures from 2017.)*

## **Recent history:**

Since the middle 2011 (starting at 8 hours' week) DeWitt Charter Township has contracted with Bath Township for shared services, performing duties of an Ordinance Compliance Officer and a Building Inspector. Since 2011 the hours have steadily increased.

**2015:** 805 Hours.

**2016:** 1,008 ½ Hours

**2017:** 903 Hours

A lot of this is attributed to DeWitt Township's adoption of a Property Maintenance Code and the spike in the Building Industry. Currently, two and a half days a week are scheduled for DeWitt Township.

The shared services agreement between the two Townships still allows for the flexibility of time and consistency with enforcement.

**Accomplishments / Goals:**

This past year the Department received many different types of complaints as the attached "Enforcement Report" indicates, of which all were addressed in a professional and equitable manner. A large percentage of the complaints were from citizens that wanted to remain anonymous and were directed to contact the Department again in two weeks for an update, keeping the line of communication open.

There were 35 Municipal Civil Infraction Citations issued with the 65A District Court to gain compliance of which 24 have been resolved and 11 are still outstanding. With time limitations for the Department, it is more efficient to issue a Citation versus issuing a Municipal Civil Infraction Violation Notice at the Township level first.

One of the goals in last year's report was to purchase the BS&A "PZE" (Planning, Zoning and Engineering) module. This was not accomplished for the simple reason that it was not budgeted for. This is not something that Code Enforcement would readily use, but would be very beneficial to Planning, Zoning and Building for the tracking of new projects.

**Transitioning:**

On June 1<sup>st</sup> of this year I will be retiring. Since the inception of the Department 10 years ago a lot has been accomplished. To name a few; there have been several Ordinances that have been amended: Rental Housing Regulations have been implemented; Home Occupation has been expanded upon, New Business allowing for expanded growth of a home occupation, Junk Vehicles are now better defined and somewhat more permissible and the decimalizing of the Building Code and Zoning Ordinance. Most importantly for the Board of Trustees is to continue to have a Department that any citizen can contact and get resolution to their concern/s.

It is also important that the next person treat all equally and keep all lines of communication open, which will establish trust and foster positive relationships in gaining compliance.

Please do not hesitate to contact me with any further questions/concerns and if I can be of any assistance.

*Respectfully submitted by Gary Cypher March 5, 2018*
