

PUBLIC SAFETY PROTECTION MILLAGE

**What will happen if the public safety protection millage
does not pass in August?**

If the public safety protection millage does not pass, the Township will need to take immediate action to reduce staffing and other expenses. The Township can not operate the police and fire departments at current levels without a public safety protection millage. To maintain any level of police and fire services, the Township will likely have to propose another millage request to secure some public safety funding, as decided by the Board of Trustees.
